If you wish, "Paja" – the old blacksmith's workshop building – will work as your lay-by spot. All of the stories are awaken around the open fireplace at Paja. Everyone will surely enjoy the warm environment there.

Snowshoe Safari

To get totally away, you need to go to the nature! To put on snowshoes and go to the surrounding forest you will find a totally different world and you will have time to explore the nature of Messilä hills. Animal tracks on the snow, snowy trees, and the joy of walking off-track in the deep snow are experiences to remember.

We meet in the front of the hotel, from where we head for the storage. There we hand over the snowshoes and go through the walking technique. We recommend hiking shoes as your own footwear.

There are different kinds of routes available depending on your wishes and weather conditions. The safari takes 1-3 hours.

- Price: 10 people 385 €
 - Additional people for 35€ per person
 - The price includes guidance, equipment, and VAT of 10 %

All-Terrain Vehicle

All-Terrain Vehicle driving in Messilä!

ATV is made for driving where there are no routes and the terrain is difficult to drive with any other vehicle.

ATV is going nicely forward on every terrain. Messilä hills and environment are excellent for driving all through the year. Automatic, 4-strook technic, when needed you can use 4-wheel- they have it all – just drive it. ATV is suitable for everyone because it is easier to control than snowmobiles.
